Academic Evaluation system

The evaluation system is designed to continually assess the students' performance in relation to the required standards of academic achievement. Apart from examinations, a student's performance is assessed on the basis of class participation, preparation of periodic assignments, mid-term tests and surprise quizzes.

Pedagogy

The school uses a very broad mix of teaching/learning techniques which includes-lectures by instructor, case studies, individual research projects, group projects, classroom discussions, classroom presentations by students, computerized learning assignments and reading textbooks. The school also provides a forum for students to develop general business knowledge and exposes them to a wide variety of speakers, presentations, and events.

Group of students are attached to a faculty mentor during the two years of their stay in JITS. The faculty member helps advice and guides students with respect to academic, administrative and career issues.

The faculty mentor closely monitors the performance of their students on academics, curricular / extracurricular activities including one to one guidance for each student placement in corporate and their personality development as ethical professionals. Faculty mentors generate monthly progress report and communicates the parents / guardian in case of deficiencies.

We understand that everybody has a preferred learning style and therefore we encourage self-directed learning wherein individuals can become empowered to take more responsibility with the learning endeavor not necessarily in isolation from others.
